No 53, Vol. 2.

NEW WESTMINSTER, WEDNESDAY, SEPTEMBER 24, 1862.

Price 6d. or 12 cts.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, SEPT. 24.

GOVERNOR DOUGLAS IN BRITISH COLUMBIA.

The autocrat of these two Colonies—we include both, because, after all, the representative system enjoyed by the Island is a mere farce—is now making a tour through the interior of British Columbia; and as it is an uncommon occurrence to have him in the Colony at all, the enquiry naturally suggests itself to one's mind, what real permanent good will accrue to the country from this visit? The estimation in which His Excellency is held by all those who, being British subjects, intend making a home in this land, and as a natural consequence take a deep interest in the prosperity of the same, is but too well known, and needs no comment at our hands. But there is an element in the Colony with whom it is somewhat different. This element is composed of aliens, representing almost every nation upon the globe, who have come hither, not to settle, not to become subjects of Her Majesty, Queen Victoria, but, pure and simple, for the purpose of amassing a fortune and returning to the land of their birth, or of their preference. These men, or at least many of them, are our chief traders and packers. And of course their political creed extends not beyond the opening up of some favorite road, the doing of some local work, or the granting of some local favor, whereby the interests of the Colony may be made subservient to their individual interests; whereby, at the expense of the whole, they may be assisted in their individual object aforesaid. This class of men will, as a matter of course, favor a round the Governor, and by flattery his vanity, endeavor to gain a point with him. They will give him cheers, addresses or petitions, wholesale or retail, if he will but entertain favorably their schemes of self-aggrandizement. Now we do not blame the class of men to whom we have referred beyond this, that being aliens in a British Colony, they ought to be exceedingly careful not to allow themselves to be used politically either for or against the Governor of that Colony. And while they are engaged in the accumulation of a fortune, which in itself considered is laudable enough, they ought not to allow themselves to stand in the way of a great and legitimate political party, seeking these popular institutions and British rights to which they have become accustomed in other lands.

And this is just one of the evils, under our present governmental system, of which we complain. One man possessing the sole power of spending half a million annually, in thus being brought into contact with such a mixed people, is exposed to temptation beyond the ordinary power of man to resist for any length of time. We repeat that Governor Douglas has kept his skirts as clear in this respect as most men would have done under similar circumstances. But that even he has been inadvertently drawn into the net of cunning and designing men, there exists not a doubt.

In looking over the Blue Books, one cannot but be struck with the admirable tact displayed by His Excellency, in turning to good account, in his dispatches, everything in the shape of a petition or address, whether emanating from the "three tailors of Tooley street," or from a more numerous body of foreigners. And that his present tour will be prolific of material for such dispatches, we have every reason to believe. Commencing at New Westminster, with an address from some half-dozen of the "Hyacks," who, for a grant of £250, were induced to stultify themselves by endorsing his policy in this Colony; everything bids fair for a pretty good grist of these sycophantic and to His Excellency, precious documents. For it will easily appear that if the paltry sum above mentioned will purchase such a document, even in New Westminster, the large revenue at his command will go a great way in the interior, where people care less for politics, and more for the temporary facilitation of their local schemes for the accumulation of wealth. There can therefore be little doubt that, during his present journeyings, Governor Douglas will procure material out of which to manufacture a number of "stock" dispatches, showing that he is popular with the people, and that his administration is appreciated and approved of throughout this Colony, the agitations, memorials, and writings of the people and the press, to the contrary notwithstanding. He will, of course, take care to conceal from His Grace, the Duke of Newcastle, the unpleasant fact, that such documents as those to which we refer, are not

spontaneous emanations from the people; but simply obtained from foreigners and other irresponsible persons, in exchange for a material consideration. And, moreover, that these same documents are in many instances obtained from those who, but the other day, were the most virulent in their opposition to, and attacks upon, His Excellency. This is indeed a pitiful state of affairs; and unless some united and decided action be taken by the people with a view to putting an end to such an unsatisfactory and disgraceful system, there is no telling how long we may have to submit thereto.

ROYAL MAIL

STEAM PACKET

COMPANY'S AGENCY,

For British Columbia and Vancouver Island.

OFFICE—MACDONALD & CO., BANKERS,

YATES STREET, VICTORIA, V. I.

THE ATTENTION OF SHIPPERS AND PASSENGERS is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the PACIFIC MAIL STEAMSHIP COMPANY'S VESSELS and the PANAMA RAILROAD.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall DIRECT being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST and MOST EXPEDITIOUS MEANS OF TRANSIT for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP COMPANY, Specie and Bullion can be conveyed to London and Havre in France.

Further information on the subject of Freight, Passage Money, &c., will be furnished by the undersigned. ALEX. D. MACDONALD, Agent. jy12

\$1000 Reward.

THE BRITISH COLUMBIAN.
This Journal is published every Wednesday and Saturday, at the office, Lytton Square, New Westminster. Single copy, price 6d.; or 12d. per quarter, 10s., or 40s. per annum. Subscriptions must be paid in advance.
Copies of this paper can be had at the Book Store of Mr. S. T. Tilley, Columbia-street.

ADVERTISING RATES.
Transient Advertisements, 2 inches and under, \$2 first insertion, and one dollar each subsequent insertion. Over two inches, \$1 per inch for first insertion, and half a dollar for each subsequent insertion. Special contracts with regular advertisers, insertion. Advertisements in order to ensure insertion, should be sent in before noon of the day before publication.
All Advertisements for insertion in the British Columbian must be paid in advance. Those for longer periods than one month are required to be paid each month in advance.
All Advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, SEPT. 24.

POSTAL MATTERS.

This Department waxeth worse and worse. Not only is the prohibitory tariff continued in force when it has been fully demonstrated that it is neither acceptable to the people nor productive of revenue, but sudden organic changes are made to the great injury of private interest, the confusion of commerce, and general dissatisfaction. No man can calculate for a single day with any degree of certainty upon the transmission of mail-matter to the interior; for one day you are assured it is free, and the next that it cannot go at all. This state of things in a Department so important as the one of which we write is a scandal to any civilized country, and especially so to a British Colony like this.

In the first place the postal system, in order to be successful, should be so liberal as to come within the reach of all. It is a matter in which every one is directly interested. And the theory that it is a necessity to impose high rates in this Colony in order to meet the heavy expense of the service does not say very much for the intelligence of those at the head of affairs. Any schoolboy in England or the Eastern British Provinces knows the rottenness of this theory. It has long since been fully demonstrated that a low postal rate produces a much larger revenue than a high rate. In Britain and the Provinces aforesaid a most liberal and complete postal system obtains, under which a surplus revenue is actually the result; whereas under the old and illiberal tariff that Department was a constant and heavy drag upon the general revenue. It is therefore an undoubted, a fully demonstrated fact, that a liberal postal system will be self-sustaining, while it will prove satisfactory to the public.

But, secondly, efficiency is essential to the ultimate success of any system; and especially is it so in regard to the one now under consideration. Why will people continue to patronize the Expressman, whose charges are necessarily double that of the postal rates? Simply because he has a confidence in the dispatch and correctness of the one which he has not in the other. To commercial men the quick dispatch and prompt delivery of letters and papers is of paramount importance. And all, whether merchants, mechanics or laborers, are particularly sensitive upon this point. Let any one go to the Post Office on the arrival of an Atlantic mail, and observe the eager crowding, the impatient waiting, the anxious looks of those who jostle each other in the hampered little nook where our mail delivery takes place. Whether he expects a letter from a devoted wife, a fond mother, a loving sweet-heart or a commercial correspondent, there is in all an anxious desire that their letters should come quickly and be delivered promptly; and any delay or mismanagement in regard thereto will exert an impatient growl of angry discontent from the best natured of us. We hold that the people are entitled to, have a right to demand, a liberal and efficient mail service for this Colony. What though it would not be self-sustaining at first? It is a desideratum which every body wants, and which all would be willing should be supported out of the general revenue. Only let us have a system which will be reasonably satisfactory, and we will guarantee that, should there be a considerable money deficiency, no one will growl at that deficiency being taken out of the general revenue of the Colony. But, on the other hand, so long as that Department is left in its present state, just so long will general dissatisfaction exist, and our mail service be laughed at and discarded, as a monument of the consummate folly of its framers, and a useless expense to the Colony.

THE SABBATH LAW.

The Sabbath was made for man, and all our legislation, from the first to the present day, is simply a practical comment on that text.

Fairs and markets, the processes of Civil law, travelling, sporting, gaming, baking, steamboating, theatres, public entertainments and debates, merchandizing and exposing wares, entering goods at a Custom House, or clearing a vessel at the same, vending liquors in church time, indeed, to use the emphatic language of the law, *all labor of whatever kind in one's ordinary calling* (works of necessity and mercy alone excepted) on the Lord's Day, is, with some exceptions only for extraordinary and reasonable cases, put under the ban of a statutory interdict, and subjected to heavy penalties of various kinds, from forfeiture, fine and imprisonment downwards. Contracts, bargains, wood-packing, steamboat

loading or unloading, things in other respects the most discordant and dissimilar, are thus by one fell swoop brought within the meshes of the legal net. So that the disgraceful scenes this town has witnessed of business done on Sunday on the wharves or in the town, can now be summarily suppressed. All that is now required to enable any one to inflict summary justice on an offender is to summon him, *within ten days* of committing the offence, before the nearest magistrate, prove the offence, and have the matter summarily dispatched. Or, should the case require a heavier punishment, proceed by indictment and its attendant formalities.

All this is as it should be; and altho' on some of the provisions time has "impressed his signet," yet they are so manifestly based on the successful experience of centuries, and have worked well for so long a time, the principle they enunciate has been so thoroughly established, and its operation confined within such reasonable limits by an endless succession of decisions, that it cannot but apply equally to every imaginable case likely to arise in this Colony.

We cannot get rid of the conviction we expressed in a former number that the Act was already in force under the proclamation of November 1859, had the judicial authorities chosen to put it into execution. But now there is happily no longer any room for doubt or quibble; and if honestly carried out by our magistrates, this law will at once put a stop to the notorious indecency and scandal of allowing general business to be publicly transacted on the Lord's day, in a country professing Christianity, and prevent the corruption of morals that invariably attends its profanation. It will enable men to get relaxation and refreshment of mind as well as of body; to collect themselves, as it were, by quiet and reflection, for the healthy discharge of the duties of the coming week, and so cannot fail to prove to all breathing creation an ineffable boon; and in its operations to prove a blessing to all classes of the community.

To BUSINESS MEN!—Advertise in the "British Columbian."

New Westminster, Feb. 12th 1861

FOR SALE!

HOMESTEADS AND VALUABLE REAL ESTATE.

Building Lots from \$10 to \$200 Each! Also, 50 Vara Lots and Entire Blocks of Beautiful Garden Land!

IN THE CITY AND COUNTY OF SAN FRANCISCO, on the line of the San Jose Railroad, at the WEST-END DEPOT. The title is absolutely PERFECT, being a Spanish Grant, finally confirmed and patented by the United States.

The Shafter Bill respects this Title. The City Authorities respect it. The District Courts and Supreme Court of the United States respect it.

Besides the Title has been forever quieted by a Final Decree and Judgment against the City!

So that there is not even a cloud or shadow upon it. Whoever purchases one of these lots will buy a lot and not a lawsuit.

Office, No. 19 Nagle's Building, corner of Montgomery and Merchant streets, San Francisco.

Important to Business Men in Victoria, California, Portland, and Places on the Sound.

This is the only newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is regarded as an advertising medium for the Colony. W. F. HERRING, in Victoria, and T. B. BOWEN, in San Francisco, are our authorized Agents.

GOVERNMENT GAZETTE.—In order to meet the requirements of the Government we have set apart the fourth page, or so much thereof as may be required, for the purpose of a Government Gazette. In future, therefore, all Government, as well as Municipal, notices and advertisements will appear in that Department, unless in the event of those of an urgent nature coming to hand too late for the outside, in which case they will receive an insertion on the inside.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, SEPT. 24.

MINING NEWS.

In the absence of any reliable information from our gold fields we have to depend upon the gossip of those who have just come down, which is generally unsatisfactory, inasmuch as unto those who are in the "blues" all things are blue, and to those who have made their "pile" all is bright and glittering. That the season which is now drawing to a close has, in the main, been an unsatisfactory one in Cariboo, does not admit of a doubt; and that such is owing almost entirely to the inadequate supply, and exorbitant prices of provisions, is equally certain. Although the market became glutted, and prices tumbled down to 50c. and 55c., yet this change came too late to benefit the great bulk of the miners, many of whom had left, and others, having spent all their means, were unable to buy at any price.

It would appear that of all the creeks, Williams has yielded up the greatest amount of treasure this season. Several claims have yielded enormously, some have paid well, while others are yet but partially opened, yet sufficiently so to place the fact of their richness beyond a doubt. Lightning has, on account of the great expense attending the opening of claims thereon, as yet given up but little of its treasure; but the greatest confidence is felt as to the ultimate result of operations there. This is the most extensive; and, unless the judgement of practical miners be greatly at fault, this creek will, with cheap provisions next season, contribute its full quota towards the general yield of our gold fields. Antler has behaved somewhat coquettishly of late; and although in its banks good prospects were obtained, and rich alluvial diggings announced; still the result, so far, appears to fall short of general expectation. From the other creeks we have nothing worthy of notice. The amount of gold passing down is small compared with what we were led to expect. This is, however, in a great measure explained by the fact that, owing to the great risk attending its transmission by ordinary means, from the existence of brigands, the great bulk of the treasure extracted this season has been holed up at the mines, and will come down at the close of the season in the hands of owners, who, for mutual protection, will form themselves into large hands.

Many of the packers are turning out their animals on the Bonaparte to winter, as freights are so low they cannot make expenses. Flour we learn is selling at from 26c. to 28c. at the Forks of Quesselle, and the stores at Lillooet are crowded with goods, and no sales. The Wright road is progressing rapidly, and toll is now collected thereon. At Douglas E. T. Dodge and several of the heavy packers are turning out their teams for want of freight, they having their houses at Lillooet full. Most of the stock will be wintered at the Sumas and Harrison river. The Governor was at Douglas and intended leaving this morning for Lillooet. It was said he intended to license the Lake steamers, and require them to run to some sort of resort, to abide time, as passengers are now from three to four days on the route, owing to detention at the Lakes. This is a most desirable arrangement, and one which it is to be hoped will be promptly carried out.

CONSECRATION OF ST. MARY'S CHURCH, LILLOOET.

On Sunday, Sept. 14th, this church was solemnly set apart for Divine worship, in connection with the United Church of England and Ireland, by the Right Rev., the Bishop of the Diocese. His Lordship had arrived from Cariboo the previous evening, accompanied by the Rev. R. P. Dundas, of St. John's, Victoria. At 10 o'clock the Bishop was received at the door of the church by some of the principal promoters of the undertaking, when the petition for consecration was presented by Mr. Elliot, J. P. The Bishop, having expressed his assent, proceeded to consecrate the edifice. Morning prayer having been read by the Rev. R. Lundie Brown, the incumbent, the Bishop preached an able and appropriate discourse on the mission of the Christian Church; after which the Holy Communion was celebrated. In the evening service the Rev. R. P. Dundas preached an excellent sermon on the text, "Occupy till I come." The church was well filled on both occasions, and collections (amounting to \$99.00) were made towards defraying the expenses of the building. A small debt of \$100 still remains, and some of the furnishings of the church are still wanting; but these defects will doubtless be made good in time. Considering the expense of labor and materials in this comparatively remote locality, it is highly satisfactory to find a church already completed in a town of scarcely more than three years' existence; and this result could never have been attained in so short a time, had not the Governor, the Bishop, and the Society for Promoting Christian Knowledge, generously aided the work, and had not the inhabitants, of all classes, whatever their nationality or creed, also liberally contributed according to their means. We rejoice to see the Christian Church extending itself further and further into the interior of the country. We cannot but regard the fact as an omen for good. These churches are witnesses to our sordid and forgetful age of a redemption and a heaven. Wherever Christian civilization comes it establishes these sacred signs of its presence. Churches give stability and a character to a country. Sacred remembrances of the past, sources of weekly consolation, instruction and strength in the present, they bid us also look with hope to

to the future. That land shall not perish, however fluctuating its prospects, where these symbols of the Eternal Presence are found. They testify of a coming time when the "wilderness and the solitary place shall be glad," and the Sunday-morning bells shall cheer now unpeopled wastes.

THE TYNEMOUTH AND HER CARGO.—Chancing to be down on the Island on Friday last, we witnessed the disembarkation of the 60 women, being the first shipment of the "British Columbia Female Emigration Society." They were brought round from Esquimalt by H. M. gunboat Forward, and landed in small-boats on the beach in front of the Government buildings, where they were marched up to the Marine Barracks, which had been previously prepared for their temporary accommodation. Although the time and place of disembarkation were enshrouded in considerable uncertainty during the day, yet so soon as it became known that they were being landed from the gunboat a continuous stream of humanity set in towards the point indicated, which very shortly resulted in every available inch of ground from which a view could be obtained being occupied by men of all ages and colors, eagerly looking for a sight of the long looked for and much talked about cargo. So soon as the girls were on shore and in marching order the dense crowd of eager spectators fell back, opening up a passage through which the females marched in tolerable good order, two and two, up to their temporary quarters.

Although in the lot there are perhaps few that might be called good-looking, yet, as a whole, they were neat and tidy, and presented a very creditable appearance, especially when it is remembered that they had just disembarked from such a long voyage. There are a few stout looking women amongst them, but the majority are slender, having the appearance of girls of from 12 to 15 years of age. Six of the number came up to this city by the Enterprise on Saturday, where situations were awaiting them. This is the first shipment, and of course partly experimental. We have no doubt that it will prove to the advantage of the girls, as well as those who may employ them. But as to further shipments we are inclined to the opinion that the Society would do well to exercise much caution, and not be in any haste about sending more until they see their way quite clear. It is doubtless an important and philanthropic work; but it is at the same time a very delicate and precarious one.

THE MUNICIPAL LOAN.—Our readers will be gratified to know that the requisite preliminaries for enabling the Council to negotiate the loan of \$17,500 are nearly matured, and that there is now every prospect of our being in a position to expend that amount within the city limits during the approaching winter. This, together with our ordinary municipal and other works going on, will afford employment for a large number of men, while it will at the same time enable us to prosecute with vigor important works much needed in this city.

CLEARING STREETS AND SQUARES.—We have been informed, and we sincerely trust correctly, that the intention of the Government is to have the streets and squares in the suburban plot adjoining this city cleared this fall. This would not only be an act of simple justice to those who are improving their suburban lots, but it would give additional employment to those who desire it. We shall most anxiously await the development of so important and laudable a step. Any clearing, road-making, or other works of public utility, should be thrown into the market as soon as practicable, so as to retain at least some of the many who are leaving us by every steamer, on account of their inability to obtain employment.

ANOTHER PATIENT.—A man, whose name we have not yet ascertained, was brought down by the steamer Col. Moody on Saturday and taken charge of by the Royal Columbian Hospital Board. He appears to be far gone in a low fever. It would be well in sending down sick to accompany them with a letter from the local Magistrate, or Doctor, if any, giving the Hospital Board the name, disease, duration of illness, and pecuniary circumstances of the patient. It is very awkward for a sick man, so far gone as to be unable to speak, to be put on board a steamer, and no one able to afford the slightest information regarding him, as was the case on Saturday. Besides it is very important that the Doctor should be put in possession of such information as might enable him to treat the case properly on arrival; and especially in cases where the parties have had medical attendance before coming down here.

TWO SLENDYR MULE TRAINS, the property of Mr. Romano, of Yale, and destined to team on the Yale-Lytton road, went up on Saturday last, accompanied by two monster freight wagons. This looks like the speedy opening of the road to traffic.

THE YALE RACES.—It will be seen by a reference to our advertising columns that the people of Yale are making preparations on a grand scale for a gay time at the annual fall meeting, which takes place on the 8th and 9th of October, prox. Could not some arrangement be made with one or more of our river steamers, by which parties desirous of going up from here and other points might do so for a reasonable consideration, and with a proper understanding? Were such an arrangement made, and announced in time, we have no doubt quite a number would avail themselves of so favorable an opportunity to visit Yale, and, at the same time, witness the sport promised by the bill of fare in another column.

DRUNKENNESS.—In the summary proceedings before magistrates in England last year, 82,196 persons were charged with being drunk and disorderly; but large as that number is, it is 7 per cent. less than in 1860, and there was a small decrease in that year also. Juries on coroners' inquests found 199 verdicts last year of death from excessive drinking, but that was nearly 30 per cent. fewer than in 1860. So that bad has been worse.—London Times.

HIS EXCELLENCY GOVERNOR DOUGLAS arrived at Douglas in a canoe on Friday evening en route to the upper country. We believe it is his intention to spend three or four weeks in the interior, when he will personally inspect the public works, and otherwise investigate the general affairs of the Colony.

THE HON. JOHN A. MACDONALD.—Circulars have been issued to the members of Mechanics' Division Sons of Temperance, calling a special meeting on this Friday evening (July 18th) for the purpose of initiating the Hon. John A. Macdonald. We are glad to note this, and are well pleased to see that our city member is giving the influence of his example in the cause of temperance. He is not alone in following this course. Lord Bourgham is Vice-President of the British Temperance Alliance, and many other English noblemen and gentlemen in high position are members of temperance organizations. New Brunswick, of which the Hon. S. L. Tilley is Attorney General, has five Sons of Temperance members of the Government. In the Canadian Parliament the Hon. M. Cameron's temperance society did good work last session, and enlisted four members of the Legislative Council, sixteen of the Assembly, and eight of the employees. Next session it may count upon the addition of Mr. Macdonald and of other members who will doubtless be influenced to join by the example set by the ex-Attorney General.—Kingston News.

THE KANE STREET MURDER.—After a lengthy investigation, extending over two days, the Coroner's Jury in this case found the man George Lawrence guilty of shooting the late Mr. Webster, and defined the crime as manslaughter. It remains to be seen whether a Grand Jury will think likewise.

TOWNS CLERK.—Mr. Austin has been elected Clerk for the Town of Victoria.

THE SCH. CAROLINA, freighted with coal, arrived here from Nanaimo on Monday last.

MARRIED.

At Victoria, V. I., on the 18th inst., by the Rev. Mr. Cridge, Mr. H. N. Steele, of the well known Cariboo firm of Steele & Co., to Miss Janet E. Forest, late of San Francisco.

CORRESPONDENCE.

To the Editor of the British Columbian.

SIR.—W. T. Ballou, our Expressman, arrived here at noon on the 16th inst., with your papers dated 13th. This is what we call time. Three days from New Westminster to Lillooet is what we are confident should be the proper time; and we know if "Billy" has a fair shake he will make it to the hour. He wants encouragement, and if the traders will, we will do him the justice due him—he leaves now, in a few moments, for your place, so I must hurry my note. No news from above, only the mines appear to be yielding less than last year, or at least less money as yet is coming down. Every available house here is filled with goods, and sales are slow. Miners can live here cheap enough, and we are surprised that they should go below to winter. They can winter here for about the same and they will spend considerable going down and back. Many are buying grub, and storing it till spring to take up with them to Cariboo. Send my paper by Billy Ballou's Express, and not the "Royal Mail," as we always get the news before the mail gets in.

Yours, LILLOOET.

Lillooet, 20th Sept., 1862.

To the Editor of the British Columbian.

SIR.—I have once and again in my own mind thought of and conjectured what might be the effect of that paragraph in the Hon. Malcolm Cameron's speech, delivered at the Steamboat excursion dinner, on the 2nd Sept. inst. In speaking of military men, and addressing British Columbians, he said: "They (military men) are indeed the very men, morally, socially and politically to represent you, govern you, and build you up." If this be true either military men must be very much changed in their habits of thought and action, or Mr. Cameron must perceive something in British Columbians that requires a military rule. If the latter be true then we British Columbians "cannot see ourselves" as others see us; for we have often complained that we were treated (under the present rule) like serfs, and called our Governor the Czar. Now sir, if we have felt so festive under the rule of a man whose very countenance is benevolence itself, how think you shall we feel under the military rule of a man, whose countenance is necessarily fashioned to command obedience without a murmur. Perhaps Mr. Cameron thinks we have treated our present Governor shamefully, and to punish us for that sin he recommends that we shall have raw head and bloody bones next time; but if we are to have a military Governor, let us have one (as Mr. Cameron says) who has had an opportunity of studying human nature, and especially British Columbian human nature, and let us get up a petition to the Queen and send it by Mr. Cameron, asking that Colonel Moody be appointed our next Governor. We all know him, he knows us, and I don't think that he would attempt to rule us with a rod of iron. Of all evils let us choose the least.

Yours, PRO BONO PUBLICO.

New Westminster, 20th September, 1862.

HOLLOWAY'S PILLS AND OINTMENT.—Indigestion, disordered stomach and liver.—For all departures from healthy action in the digestive organs, those noble medicaments should be tried; they remove with facility the early symptoms, and successfully grapple with the confirmed complaint. A cold and moist atmosphere, always predisposes to indigestion, hence these cases are frequent in autumn and in winter. The Ointment should be well rubbed over the stomach and liver. Simple food, eaten at regular intervals, should be well masticated before it is swallowed. Holloway's Pills will regulate the bowels, and both remedies will promote the appropriation of all nutritive, and the excretion of all redundant matters, and thus restore strength. They will likewise purify the blood and balance the circulation.

THE DOCTOR FOR ALL! HOLLOWAY'S PILLS.

CHEST COMPLAINTS.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of catarrh, bronchitis, and influenza, may be radically removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any overgrown veins, moderate the hurried breathing, and enable the lungs to do their office with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and fortify the system against consumption, asthma, and similar complaints.

STOMACH, LIVER, KIDNEYS AND BOWELS.

From various causes these organs are frequently getting out of order, and require some suitable medicine to regulate them. Holloway's Pills effect this object with wonderful celerity and certainty. They do not distress the system, or weaken the frame; they thoroughly invigorate the digestive organs. They gently excite the stomach and liver, stimulate the kidneys to perform their functions efficiently, and act upon the bowels without griping or any other annoyance; again, taken an hour before dinner, they cannot be equalled as a "Dinner Pill," as they entirely prevent acidity, flatulency, nausea, and biliousness.

WINDY OR WATERY DROPSY.

Whoever is afflicted with these complaints, should at once have recourse to Holloway's Pills. They act most energetically on the glandular and absorbent system, purify the blood, and impart a vigor which age or other causes may have temporarily taken away. They excite the kidneys to increased activity, and thereby stimulate the absorbents to remove the fluid already collected.

DISORDERS PECULIAR TO WOMEN.

There is no medicine equal to Holloway's Pills for correcting the ailments incidental to females. They may be taken with safety for any irregularity of the system. As they remove all cause of malady, and so restore, by their grand purifying properties, females of all ages to robust health.

INFLUENZA, DIPHTHERIA AND SORE THROAT.

How all-important it is to check the first departure from health! All may do so by taking Holloway's Pills, without risk or restriction. In all diseases affecting the blood, nerves, or muscles, or in cases of fever, sore throat, colds, coughs, asthma, and shortness of breath, the earlier they are taken the better.

CHILDREN'S COMPLAINTS.

Diseases incidental to children, such as feverish attacks, scarlet fever, measles, and all diseases of the skin, may be immediately checked, and soon cured, by these purifying Pills, which may be reduced to a powder, and given in doses of one, two, or three nightly, according to the age of the sufferer. Holloway's Ointment is soothing, cooling, and healing, and is better adapted than any other remedy for all external ailments.

INDIGESTION, BILE AND SICK HEADACHES.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. When nausea, flatulency, or acidity on the stomach, warns us that digestion is not proceeding properly, Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile and sick headaches, and effect a permanent cure.

LUMBAGO, RHEUMATISM AND GOUT.

In these diseases the blood is always in a highly inflammatory state; the stomach is also disordered, and the liver and kidneys unnaturally torpid. A few doses of these Pills, taken in time, will rectify all these symptoms by their cooling and purifying properties.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Flux	Sore Throat
Bleaches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Strangury
Cold	Indigestion	Tic Douloureux
Constipation of the bowels	Inflammation	Tumours
Consumption	Jundice	Ulcers
Debility	Liver Complaints	Veneral Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

EASE AND HEALTH TO THE SICK HOLLOWAY'S OINTMENT.

DISEASES OF THE SKIN.
Universal approbation has been awarded to this famous Ointment for its efficiency in removing diseases of the skin. For scrofula, scurvy, scald heads, and all eruptions of the skin, both in infancy and mature years, no remedy can be applied which so quickly cures as Holloway's Ointment. In the nursery it should always be at hand to ease the many skin affections to which the majority of children are liable. In all heat and tooth rashes the Ointment is wonderfully cooling and curative. To soldiers, sailors, miners, and travellers in foreign lands, it is invaluable.

SORE THROAT, BAD BREASTS, BAD LEGS.
In this class of maladies, an improvement in the appearance of the disease of the patient, follows the first dressing with the Ointment.
It must not only be smeared on the wound, or sore, but be rubbed for some inches round about the diseased swollen or painful parts. It will penetrate to the blood vessels, nerves, and muscles, and even to the bone, and will excite the most wholesome, healing, and purifying power over every tissue requisite for thorough repair. The effect of the Ointment is increased by fomenting with warm water before the Ointment is rubbed in, but sores when healing, should never be cleansed with anything else, as the young and new flesh which appears like a cream, would be washed away.

BLOOD TO THE HEAD, APOPLEXY.
Nothing gives so much ease in these complaints from which so many suffer, as Holloway's cooling and healing Ointment. When rubbed upon the spine it acts most energetically in drawing surplus blood from the brain; even to children in teething; this Ointment has a miraculous effect in preventing fits and convulsions, so often attendant on tooth-cutting. The Pills should be used according to the directions.

RHEUMATISM, GOUT, STIFF JOINTS.
Every one suffering from these painful affections should use this purifying Ointment, as it has rescued thousands from a life of torture, and every other means had been tried in vain. The Ointment should be well rubbed into the skin at least twice a day, after it has been properly fomented with warm salt water, and dried. The inflammation subsides, and the patient no longer helpless, resumes his accustomed occupation.

GLANDULAR SWELLINGS, BRONCHITIS, MUMPS, SORE THROAT, AND DYPHTHERIA.
To combat these diseases with success, a remedy is required which will have the whole absorbent system under its control. Such a remedy is Holloway's Ointment, which, when rubbed on the skin, it penetrates to the glands, and removes any obstruction or impurity which may be impeding their healthy action. This Ointment acts on the very mainspring of life, for through the glands pass all new matter required for the body's repair. In all cases of cases, the Ointment and Pills used conjointly will act so searchingly, and certainly, as to effect cures in the most deplorable cases.

PISTILLS AND PILLS.
All inflammations and ulcerations of sensitive parts may be promptly relieved, and ultimately cured, by the diligent use of this cooling and healing Ointment, used twice daily by bathing the parts in cold water. Immediate ease springs from this treatment; perseverance is necessary to effect a permanent cure.

ASTHMA, SHORTNESS OF BREATH.
In these complaints the Ointment should be well rubbed twice a day upon the chest, and between the shoulders; it will penetrate to the lungs, stimulate them to renewed exertions, prevent stagnation of blood, moderate the pulsations of the heart, regulate the current of air through the bronchial tubes, and thus effect a permanent cure.

Both the Ointment and Pills should be used in the following cases:
Bad Legs, Chapped Hands, Scalds, Sore Throats, Sore Nipples, Contracted and Stiff Joints, Sore Throats, Burns, Stiff Hands, Sore Throats, Blisters, Elephantiasis, Skin-diseases, Bites of Mosquitoes, Scabies, Scurvy, and Sand-Pies, Gout, Sore-heads, Cerebral, Glanular Swellings, Ulcers, Tumors, Chieftain, Lungs, Wounds, Corns (soft), Piles, Yaws, Chilblains, Rheumatism.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 6d., 3s. 6d., 4s. 6d., 5s. 6d., 6s. 6d., 7s. 6d., 8s. 6d., 9s. 6d., 10s. 6d., 11s. 6d., 12s. 6d., 13s. 6d., 14s. 6d., 15s. 6d., 16s. 6d., 17s. 6d., 18s. 6d., 19s. 6d., 20s. 6d.,
